#### Vaz Barreto Shingaki & Oioli

Clients praise Vaz Barreto Shingaki & Oioli for always being up to date with new regulations and practices in Brazil. "It's a dynamic firm that is always doing its best to achieve its clients' objectives," one says. "As a consequence of their vast experience working with capital markets, the team has demonstrated a great ability to find innovative solutions for the proposed works."

The capital markets practice group is widely renowned and is led by Erik Frederico Oioli and José Barreto da Silva Netto. "All of them developed great works for us," a client notes. "We would want them on a future deal once they are one of the best professionals on their specific areas here in Brazil."

"Vaz Barreto Shingaki & Oioli's partners have been representing financial institutions and public companies in capital market transactions and debt financings for a long time," a client says. "With this, their firm acquired deep expertise with the public and private offerings of promissory notes and other debt securities, shares, warrants, bank credit certificates, real estate receivable certificates and other securities. They also advise clients for other securitisation products such as investment funds in credit rights, being successful for many years."

In October, the capital markets team acted as deal counsel to Interligação Elétrica Garanhuns and HSBC Corretora de Títulos e Valores Mobiliários of the first issuance of debentures of Interligação Elétrica Garanhuns and on the 7th issuance of debentures of Bradesco Leasing – Arrendamento Mercantil that were offered publicly and helped Bradesco Leasing to increase its funding and run its business plan. In the second semester of 2012, the firm represented Alupar Investimento Group on a public company registration and five public debt offerings. Vaz Barreto also assisted Via Rondon Concessionária de Rodovia on its first public offering with restricted placement efforts of debentures.
